Dear Sir/Madam:

Re: Request for Information Pursuant to Section 104(e) of CERCLA for  
Former Lyons Diecasting Facility Site, Buckner, Missouri

The U.S. Environmental Protection Agency seeks the cooperation of the Atlantic Richfield Company (Atlantic Richfield) in providing information and documents relating to the Former Lyons Diecasting Facility Superfund Site, Buckner, Missouri (Site). The Site is located in Section 18, Township 50 North, Range 29 West, Jackson County, Missouri, commonly known as 2300 North Holly Road, Buckner, Missouri. A map outlining the Site is enclosed.

The EPA has information that the Site was once the location of a pipeline compressor station. According to Jackson County, Missouri deed records (Enclosure E), Sinclair Refining Company owned the Site from 1936 to 1950. According to corporate records from the Missouri Secretary of State, Atlantic Richfield Company is the successor through mergers to Sinclair Refining Company. In 1950, the Site was deeded to Sinclair Pipeline Company.

Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. § 9601 et. seq., the EPA has documented the release or threatened release of hazardous substances, or pollutants, or contaminants at the Site.

Section 104(e) of CERCLA, 42 U.S.C. § 9604(e), provides the EPA the authority to require information from any party who may have information relevant to the release or threatened release of hazardous substance, pollutants or contaminants. This section also provides the EPA the authority to require information from any party relating to the ability of a person to pay for or to perform a cleanup.

Pursuant to Section 104(e)(2) of CERCLA, 42 U.S.C. § 9604(e)(2), the EPA has broad information gathering authority which allows EPA to require persons to furnish information or documents relating to the identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed at a vessel or facility or transported to a vessel or facility, the nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility, and ability of a person to pay for or to perform a cleanup.
